### East Georgia College

#### COMPASS Placement Retesting Policy

This policy is effective with the beginning of placement testing for Summer Semester 2006 admissions. Students admitted prior to Summer Semester 2006 will not be allowed to retest for placement.

Students will be assessed a flat \$15.00 retesting fee regardless of the number of areas in which they choose to retest.

Students are eligible to re-test the placement test if their initial COMPASS score is below the University System cut-off score. This applies to all areas (math (37), reading (74), or English (60)) of learning support.

Students are allowed to retest in each COMPASS area only once.

Students must re-test prior to the first day of class for the semester of admissions.

Applicants can call the testing coordinator or Admissions Office to schedule a re-test. Re-testing or placement testing is also available on a first-come, first-served basis from 8am-3pm Monday to Friday. During a final registration period, applicants who have not taken their initial placement test will be given first priority as testing accommodations are limited.
